

### Transcript: EBSCO ebooks

Many of our EBSCO ebooks will be on your reading lists, however you can also search the platform for books other than your key texts.

The easiest way to find all the ebooks we have on the EBSCO platform is to go to the 'A-Z Databases' list on the library website. Then scroll down to 'Key Texts: EBSCO.'

You will then be taken to the EBSCO platform. If you are off-site, then you will need to log in.

You can search or browse for titles, authors or keywords using the basic or advanced search, or browse by category.

Click on the title to find more detailed information about the book, including how many pages you are permitted to copy, paste, print and save.

On the left of the screen you can choose to read the PDF online, or create an account to download and read offline.

Read and view chapter headings at the bottom of the screen. Contact the Library if you have any questions about our electronic resources.
